

We, health.on Ventures GmbH, are a very dynamic and young company that identifies and markets unknown consumer healthcare ideas with great market potential and promotes innovative healthcare products and solutions. We turn products into strong brands with content, function and a high level of trust. In addition to the shopping experience, our offer to customers also includes comprehensive health information.

For our rapidly growing company based in the Medical Valley Center in Erlangen, Germany, we are looking for a

## **Business Development Specialist (m/f) Netherlands (10-15 hours/week)**

### *Your Profile*

- Completed professional training or studies
- Excellent command (native-speaker level) of Dutch, very good knowledge of English or German
- You enjoy communicating with business partners and customers, work efficiently and success-oriented
- Ideally, you already have experience in e-commerce or the healthcare sector

### *Your Tasks*

- You will help us to set up a Dutch online shop for consumer healthcare products, in particular check the Dutch translations provided to you
- You will help with the search engine optimization of our online shop (we will train you thoroughly on that)
- You will be involved in the online marketing of our shop (we will be happy to train you on this as well)
- You will look for suitable partners and negotiate cooperations with them so that our products get traction in the Netherlands.
- You will handle customer inquiries / complaints by telephone or e-mail

### *Our Offer*

- Very dynamic and friendly working environment, excellent working atmosphere, close teamwork with the managing directors
- Flexible working hours & home office options
- Of course, an attractive compensation

Are you interested? Then please send your application (CV, certificates, short cover letter with your salary expectations) by e-mail to [recruiting\(at\)health-on.ventures](mailto:recruiting(at)health-on.ventures). We look forward to hearing from you!
